

# DEFENDER HD

DEFENDER is the ideal solution to protect construction sites, special events areas and more generally any locations where temporary demarcation is necessary. The patented joint used between the horizontal and vertical tubes, ensures new standards in terms of strength and durability, thanks also to the special ribbed profile. The system is manufactured according to the CEE 92/57 D.L.494/96 D.L. 528/99 norm.

## APPLICATIONS

- > Building worksites
- > Quick storage
- > Work in progress areas
- > Sports events
- > Trade fairs

## PRODUCT SPECIFICATIONS

DEFENDER HD is a working site temporary fence made by a ribbed pregalvanized tubular frame 38mm diameter welded with s/s AISI 307 Si wire to prevent oxidation and a mesh panel infill. The welded mesh has 3.4 mm diameter horizontal wires at 254 mm centres and 2.8 mm diameter vertical wires at 101.6 mm centres galvanized according to the UNI EN 10244-2 norm. The 600x235x130mm cement base, are provided with eight holes to suit the vertical panel profiles.
